

GreenPoint Roofing LLC, recently replaced my storm damaged roof. The Project Manager inspected my roof, answered all of my questions, and explained the different options that were available to me. They worked with my insurance company from the beginning to the end; they were flexible with my installation schedule. They even accommodate my request to have the work done on the weekend.

They were great to work with and made the entire process totally painless – all I had to do was pick my shingle color!

Thank you GreenPoint Roofing for your professional work. I have recommended you to many of my friends!
